

## Overview

MID approved pre-payment card meter for pay-as-you-go resale of electricity

Contactless RFID technology – simply swipe card over meter to add credit

## Perfect Solution for

- Caravan Parks
- Marinas
- Rental Property

## Features

- Pre-payment functionality
- Security encrypted cards
- 2 rate tariff option
- Friendly non-disconnect times
- Emergency credit function
- Standing charge option
- Debt recovery option
- Optional 'timer mode'

## Technical Data

<b>Electrical</b>	Voltage	Nominal voltage	220V–240V, 276V max
		Voltage withstand	415V continuously
		Frequency	Nominal frequency
	Current	Basic current (Iref)	5, 10, 15 and 20A
		Maximum (Imax)	100A
		<b>Metrology</b>	Accuracy
<b>Environmental</b>	Temperature Range	Reactive energy	Class 2, to IEC 62053-23
		Ingress protection	IP52, to BS EN 60529
		<b>Physical</b>	Terminal arrangement
	Main Terminal size	Terminal Construction	Solid brass
